

Aba Victor

Software Engineer | React

Results-driven Software Engineer specializing in React, Next.js, JavaScript, and modern frontend technologies. Skilled in building scalable, responsive, and user-friendly web applications. Proficient in state management with Redux Toolkit and Firebase integration. Passionate about creating clean user interfaces and solving real-world problems through code.

WORK EXPERIENCE

Frontend Developer

SEDL (Software Engineering Development Lab)

01/2025 - Present

Lagos, Nigeria

Achievements/Tasks

- Developed scalable, modular frontend components for SaaS platforms using React, Next.js, TypeScript, and Redux Toolkit.
- Improved page load performance by 25% through code-splitting, image optimization, and efficient state management.
- Integrated RESTful APIs and implemented secure authentication flows to enhance product reliability and usability.

Software Engineer (Frontend)

TechNova Solutions

01/2024 - 12/2024

Remote

Achievements/Tasks

- Built and maintained responsive, user-focused web applications using React, TailwindCSS, and Firebase, boosting client UI performance by 30%.
- Integrated Firebase for real-time database management, analytics, and secure authentication.
- Collaborated cross-functionally with backend engineers to ensure seamless API integration and optimized data flow.
- Translated Figma design prototypes into reusable and accessible React components, ensuring design accuracy and mobile responsiveness.

EDUCATION

B.Sc. Zoology

University of Ilorin

01/2016 - 01/2020

SKILLS

HTML

CSS

JavaScript

React.js

Next.js

TypeScript

TailwindCSS

Git/GitHub

Responsive Design

PERSONAL PROJECTS

Frontend Developer (01/2024 - 12/2025)

- Built and maintained responsive web applications using React and Tailwind CSS, improving client UI performance by 30%. Integrated Firebase for authentication and real-time data handling. Collaborated with backend engineers to consume APIs and ensure smooth data flow. Worked closely with design team to translate Figma wireframes into functional UI components.

Software Engineer (Frontend) (01/2025 - 01/1970)

- Developed scalable frontend components for SaaS applications using React, Redux Toolkit, and TypeScript. Optimized application performance, reducing page load time by 25%. Implemented CI/CD workflows with GitHub Actions to streamline deployment.

ACHIEVEMENTS

CI/CD Automation Setup (05/2025 - Present)

implemented GitHub Actions and Vercel for continuous integration and deployment at TechNova Solutions, cutting deployment time by 40% and minimizing manual errors.

Performance Optimization Initiative (02/2025 - Present)
